

This is mycmdB with: (testing for an environment from a macro)  
(B: next will be myenv)

**Start of myenv**

**End of myenv**

(next will be myenv)

**Start of myenv**

*Previous was another myenv!*

**End of myenv**

(next will be something else)

A quote

This is mycmdA with: (testing for simple macros)

(A: next will be mycmdA or mycmdB)

This is mycmdB with: (from B, again)

(B: next will be myenv)

**Start of myenv**

**End of myenv**

(next will be myenv)

**Start of myenv**

*Previous was another myenv!*

**End of myenv**

(next will be something else)
