

This is mycmdB with: (testing for an environment from a macro)
(B: next will be myenv)

Start of myenv

End of myenv

(next will be myenv)

Start of myenv

Previous was another myenv!

End of myenv

(next will be something else)

A quote

This is mycmdA with: (testing for simple macros)

(A: next will be mycmdA or mycmdB)

This is mycmdB with: (from B, again)

(B: next will be myenv)

Start of myenv

End of myenv

(next will be myenv)

Start of myenv

Previous was another myenv!

End of myenv

(next will be something else)
